

Dear Employee:

The IRS has announced significant improvements to the IRS Form W-4, Employee's Withholding Certificate, for 2020. The new form and revised withholding calculations could affect your tax withholding and year-end refund or tax due amounts when you file your annual income tax return.

The 2020 Form W-4 is designed to be both easier and more accurate, permitting easy adjustments for anticipated tax credits, other income, and deductions. If you would like to adjust your withholding to account for these factors, you will now be able to simply enter your full-year estimated amounts on the Form W-4.

You can also use the IRS online "Withholding Estimator" at <http://www.irs.gov/app> to determine how to complete the 2020 Form W-4 so that you don't have too much or too little withheld during the year.

### **Form W-4 Highlights**

- There are three options for employees with multiple jobs or two-earner families:
  - Simplified worksheet in the W-4 instructions
  - Enhanced IRS online Withholding Estimator
  - New checkbox to automatically adjust for multiple jobs or two-earner families
- New filing status — Head of Household
- New adjustment entries:
  - Full-year child and dependent tax credits
  - Full-year other income; and,
  - Full-year deductions

In addition, you will still be able to authorize an additional dollar amount to withhold from each pay period, for any reason.

If you have any questions, **please contact Ken or Sherry at 301-948-1518.**

### **Basic Instructions:**

**Fill out Step 1 completely.**

**Most likely, you will not fill out Steps 2 and 3.**

**If you want taxes taken out you may enter a number in Step 4 line b. That tells us and the government how much taxes to take out.**

**If you believe that you will be "exempt" from owing taxes (most likely if this is your first or only job), write "exempt" on the line right below line 4 c.**

**If you are having money withheld and opt to have additional withholding, you may write that on line 4 c.**

(c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld . . . . . ▶

**TIP:** To be accurate, submit a 2020 Form W-4 for all other jobs. If you (or your spouse) have self-employment income, including as an independent contractor, use the estimator.

**Complete Steps 3-4(b) on Form W-4 for only ONE of these jobs.** Leave those steps blank for the other jobs. (Your withholding will be most accurate if you complete Steps 3-4(b) on the Form W-4 for the highest paying job.)

Step 2(b) – Multiple Jobs Worksheet (Keep for your records.)

If you choose the option in Step 2(b) on Form W-4, complete this worksheet (which calculates the total extra tax for all jobs) on only ONE Form W-4. Withholding will be most accurate if you complete the worksheet and enter the result on the Form W-4 for the highest paying job.

Note: If more than one job has annual wages of more than \$120,000 or there are more than three jobs, see Pub. 505 for additional tables; or, you can use the online withholding estimator at www.irs.gov/W4App.

- 1 Two jobs. If you have two jobs or you're married filing jointly and you and your spouse each have one job, find the amount from the appropriate table on page 4. Using the "Higher Paying Job" row and the "Lower Paying Job" column, find the value at the intersection of the two household salaries and enter that value on line 1. Then, skip to line 3
2 Three jobs. If you and/or your spouse have three jobs at the same time, complete lines 2a, 2b, and 2c below. Otherwise, skip to line 3.
a Find the amount from the appropriate table on page 4 using the annual wages from the highest paying job in the "Higher Paying Job" row and the annual wages for your next highest paying job in the "Lower Paying Job" column. Find the value at the intersection of the two household salaries and enter that value on line 2a
b Add the annual wages of the two highest paying jobs from line 2a together and use the total as the wages in the "Higher Paying Job" row and use the annual wages for your third job in the "Lower Paying Job" column to find the amount from the appropriate table on page 4 and enter this amount on line 2b
c Add the amounts from lines 2a and 2b and enter the result on line 2c
3 Enter the number of pay periods per year for the highest paying job. For example, if that job pays weekly, enter 52; if it pays every other week, enter 26; if it pays monthly, enter 12, etc.
4 Divide the annual amount on line 1 or line 2c by the number of pay periods on line 3. Enter this amount here and in Step 4(c) of Form W-4 for the highest paying job (along with any other additional amount you want withheld)

Step 4(b) – Deductions Worksheet (Keep for your records.)

- 1 Enter an estimate of your 2020 itemized deductions (from Schedule A (Form 1040 or 1040-SR)). Such deductions may include qualifying home mortgage interest, charitable contributions, state and local taxes (up to \$10,000), and medical expenses in excess of 7.5% of your income
2 Enter: { \$24,800 if you're married filing jointly or qualifying widow(er)
\$18,650 if you're head of household
\$12,400 if you're single or married filing separately }
3 If line 1 is greater than line 2, subtract line 2 from line 1. If line 2 is greater than line 1, enter "-0-"
4 Enter an estimate of your student loan interest, deductible IRA contributions, and certain other adjustments (from Part II of Schedule 1 (Form 1040 or 1040-SR)). See Pub. 505 for more information
5 Add lines 3 and 4. Enter the result here and in Step 4(b) of Form W-4
